Azure Assist – Free
Be confident in your Azure spend

IT organizations are under unprecedented pressure to manage and justify costs. Today, IT leaders have responsibility for financial analysis, forecasting and reporting for their department, but lack the tools, experience, budget and process needed to properly manage Azure costs, security, and governance.

Azure Assist - Free makes it easy

VIAcode Azure Assist - Free helps you to rest easy, knowing your Azure costs are predictable and optimized.

Azure Assist proactively looks across all of your Azure environment, collecting and analyzing data, and compiling that data into a single, easily accessible dashboard.

Azure Assist takes only minutes to set up, and you'll get more than just cost data. You'll get **actionable insights**.

By bringing analytics to your Azure cost data, Azure Assist:

- gives you an in-depth understanding of FinOps in your Azure environment,

- shines a light on any changes in spend or areas of concern,

- and delivers customized optimization strategies proven to reduce costs by as much as 30% (or more).

Azure Assist - Free

The Azure Assist dashboard provides a snapshot of your current cost profile and potential savings. You'll receive weekly customized optimization recommendations.

With the free version of Azure Assist, you're taking the first step to better managing and optimizing your Azure operations.

And if needed, VIAcode stands ready to act as an extension to your team, becoming your virtual cloud center of excellence.

Azure Assist – Free
Features & Benefits

Eliminate cost anxiety

Azure Assist automatically collects and analyzes data on a weekly basis so you can have a better understanding of your Azure spend. For example, you'll know when your spend is expected to surpass budget, and you'll know why, so you can take appropriate measures to control your costs.

Continually optimize Azure

Azure Assist continually monitors your cloud assets for optimization opportunities, including:

- Orphaned resources
- Rightsizing
- Idle resources
- Suboptimal pricing

These opportunities are prioritized and delivered as recommendations on a weekly basis. Based on best practices and proprietary strategies developed by VIAcode, these optimizations can save your organization 30% or more on its annual Azure costs.
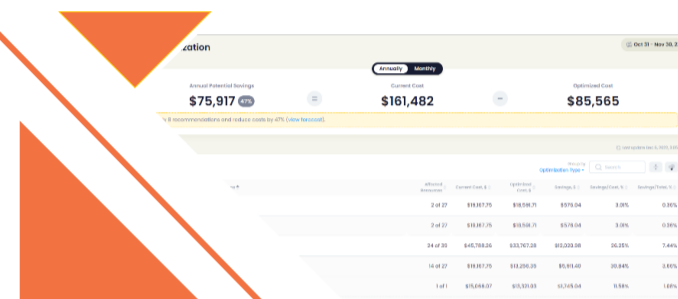

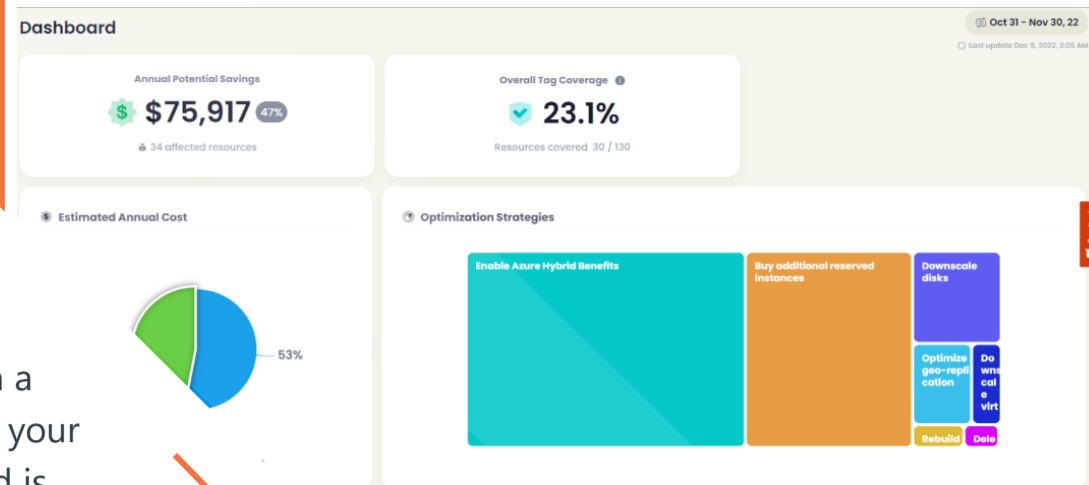

Support when you need it

Azure Assist – Free includes the ability to escalate an optimization recommendation to VIAcode. Engage VIAcode's Azure experts to review and implement recommendations if your organization does not have the experience or bandwidth.*

Your single pane of glass

The data Azure collects is distributed and fragmented, making it difficult for FinOps to analyze and take action. Using AI-driven analytics, Azure Assist delivers a dashboard of consolidated and actionable insights that help you prioritize actions to optimize Azure.

Ask about upgrading Azure Assist – Free at no cost to get actual spend vs. budget, show back/charge back information, alerting on cost changes and budget, and more.

About VIAcode

No one has more experience than VIAcode in helping organizations migrate to, optimize and manage Azure. We are Gold Certified, have earned Advanced Specialization in Azure Migration, are a development partner to Microsoft SQL and Azure product teams, and are an Authorized Azure CSP.
